

## Biomass Burner

## Biomass Burner Italian Construction

### MULTIFLAM Series

#### Specifications:

##### Metal Body

Designated burning stainless steel

Alternative heat pump water; 16 stainless plakon- Mechanical Three-way valve - Expansion tank 8 liters with a flow meter and pressure transducer

Multiple choice Command Display (Greek menu with picture)

Wireless Controller

Air Flow Sensor

Capacity Water Tank 100 lt

Thermal Power: 40.000 kcal / h

Auto Power Pellet

Nominal Heat Power: 46 KW

Management Combustion Systems (DMT)

Thermal Performance: Certified Measurement 87%

Diameter of flue: F 160

Dimensions: Length x Width x Height 1200x1050x1270mm
